

### MicroStrategy Developer: Reporting Essentials

#### **Objetivos Gerais**

This course provides students with an overview of the extensive reporting capabilities of MicroStrategy Developer. Participants leave with an understanding of report creation and the numerous data and style report manipulations in MicroStrategy Developer, including auto-style creation, drilling, data pivoting, page-by, outline mode, grid and graph formatting, and thresholds.

All lectures are reinforced with hands-on exercises.

MicroStrategy Developer was known as MicroStrategy Desktop in version 9.3.1 and prior versions.

#### **Objetivos Específico**

At the end of this course, trainees will be able to:

- Will leave with an understanding of report creation and the numerous data and style report manipulations in Developer, including auto-style creation, drilling, data pivoting, page-by, outline mode, grid and graph formatting, and thresholds;
